

## **CLEANUP PROGRAMS: Addendum**

**Introduction: A discussion of the region's high priority cleanup enforcement work (RCRA Corrective Action and Superfund), including the following elements:**

- 1. Administrator's Superfund Task Force Report (7-25-17) Recommendations for Revitalizing the Superfund Program. Provide regional plans for achieving results for enforcement related recommendations to:**
  - a. Encourage and facilitate PRPs' expectations and thorough cleanup of sites;
  - b. Create oversight efficiencies;
  - c. Promote the redevelopment and reuse of sites by encouraging PRPs to invest in reuse outcomes;
  - d. Encourage private investment in the cleanup and reuse of sites by optimizing tools and realigning incentives to encourage third-party investment.
- 2. RCRA CA Individual Facility Assessment:** Provide regional plans for using enforcement tools to achieve RCRA 2020 Corrective Action goals. Include, if applicable, information on facilities that are on the IFA list.
- 3. Cleanup Enforcement Measure Targets:**
  - a. Measure – Number of PRP and other party commitments to perform or pay for cleanup and/or reuse of contaminated sites. This is a monthly bowling chart measure in FY18 and will be an OECA annual GPRA measure in FY19. There are no regional targets; the national target is 110.
  - b. Provide regional plans for achieving results for this measure, which includes finalized responsible party agreements for response (e.g., CD, AOC, UAO, CA, and amended agreements for cleanup); bankruptcy settlements that have future cost dollars; RCRA Corrective Action cleanup orders; Comfort/Status letters issued; Federal Facility RODs issued.
